

Types of Needs and Behaviors that Camp Bob Waldorf Evaluates

1. A child who requires medical attention beyond the capacity of our health center and whose participation in the overall camp program would be harmful to their medical condition.
2. A child who requires one-on-one supervision in a school setting.
3. A child who has difficulty blending into, cooperating, and following rules in a living or classroom situation with children their own age.
4. A child who has displayed physical, emotional, or verbal aggression and has harmed (or attempted to harm) another person or their property during the past year.
5. A child who has displayed self-destructive or suicidal tendencies within the past 6-12 months.
6. A child who has been hospitalized for psychiatric care within the past 6-12 months.
7. A child who is involved with illegal substances (drugs, alcohol) and/or cannot respect that we are a drug, alcohol, and smoke-free community.
8. A child who cannot respect boundaries around sexual behavior and compromises the safety of others.
9. A child who has any history or tendencies to set or play with fire.
10. A child who has been suspended from school in the last 12 months.
11. A child who walks or runs away from the classroom or other space.
